Simple Engineering
For Great Solutions

Over 100

projects
completed in
India and Abroad

Providing Value

Engineering, Quality
Management, Expertise in Pre-
Engineered Structures and
Solar Infrastructure

Satec provides

all-inclusive, design to
build solutions for Pre-
Engineered Structures.
Our design solutions not
only make the project, time
and cost efficient, they also
ensure that the structures
provide a life service of over
35 years.

Vision

Our Vision is to be the most trusted organization, providing superior quality of products and services and assured customer satisfaction in the global infrastructure market.

Mission

Our Mission is to provide cost-effective and superior quality infrastructure solutions; to innovate and integrate best practises to offer the finest products in the global infrastructure market.

Manufacturing Unit

Fabrication Satec's Fabrication facility sprawled across 80,000 square feet processes over 4000 metric tons of steel per month for fabricating pre-engineered structures, solar infrastructure products, portable cabins and auto components.

Galvanization Spread over 40,000 square feet, Satec's galvanizing unit has the capacity of 4000 metric tonnes per month.

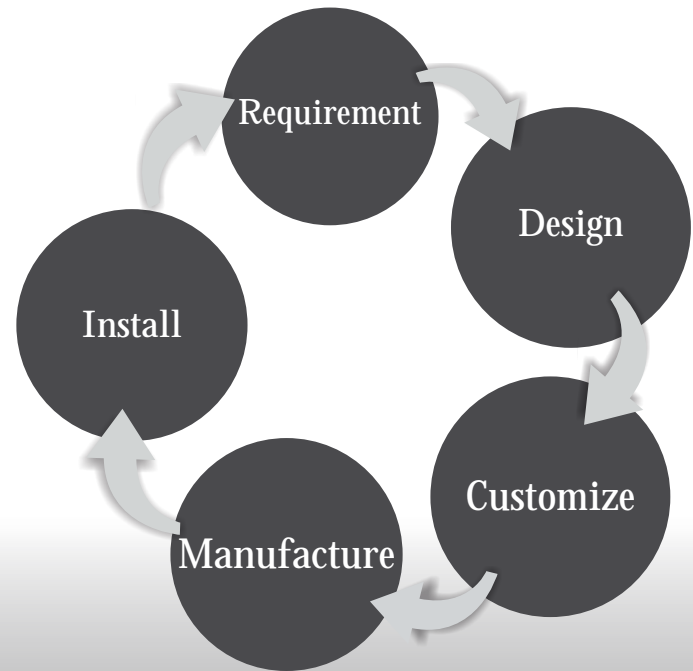

Panel Manufacturing The manufacturing plant in Bhuj has a dedicated space of 30,000 square feet for Panel Production.

One Stop Solutions

- Prefabricated Structures
- Pre engineering Buildings
- Solar Infrastructures Products
- Auto Camponotus
- Transmissions Towers

Manufacturing of industrial products

Our Completed Projects

- Anupam Industries prefab buildings
- IOCL Labour colony
- Jindal Steel & Power Ground plus one housing
- Lodha Prefab Buildings
- Essar Labour Colony
- Monnet containers project
- Simplex container project
- Kraft food container project
- PNG low cost labour colony
- Praj Africa low cost labour colony
- 1 Juwi India Prefabricated Inverter Room
- 2 MW Lanco Solar Prefabricated Inverter Room
- 40 MW L&T Prefabricated Inverter Room
- 15 MW Enfinity Energy Prefab Inverter Room
- 150 Welspun Module Mounting Structure
